

Graphic Standards

INTRODUCTION

This Graphic Standards Manual sets guidelines for appropriate treatment of the Kansas logo as well as other visual elements such as typography, layout and photography. Everyone involved in the creation of communication materials should carefully study and apply these guidelines as we work together to assure a consistent, uniform look for state agency communications.

To request an exception from these graphic standards, please contact **Sherriene Jones-Sontag, Communications Director for Governor Sam Brownback at Media@ks.gov or (785) 368-7138.**

STATE AGENCY LOGOS

This page illustrates the use of the Kansas logo for state agencies. All agencies are encouraged to adopt the logo to project a consistent brand throughout state government. Proper and consistent use of the logos is essential to establishing and maintaining a strong brand image.

Do not recreate the logo. Use **ONLY** the original art provided by the State Printer or Department of Commerce.

REVERSE APPLICATIONS

The logo may be reversed out of any color that provides enough contrast for it to read clearly. It may also be reversed out of a photograph as long as there is adequate contrast and if the detail in the photo does not obscure the logo.

In either case, the preferred version is gold and white (top example), as long as the gold star ribbon contrasts well with the background image.

If a reversed-out logo is used in a small size, it is permissible to make the "Ad Astra Per Aspera" transparent.

LOGO SIZE PREFERENCES AND ALTERNATE CONFIGURATIONS

Whenever possible, the logo should be at least 1-1/4" in length.

ALLOWED

LOGO STAGING AREA

Staging refers to the amount of clear space surrounding the Kansas or agency logo. Adequate staging achieves separation from other elements such as images, copy blocks, headlines and the edge of the page. Ample staging will set off the logo with impact.

Whenever possible, allow 3/8" white space surrounding the logo.

AGENCY LOGO STAGING AREA

X = 3/8"

UNACCEPTABLE LOGO APPLICATIONS

To ensure a consistent visual brand image it is important to use only the artwork available through the State Printer or Commerce. This artwork should never be altered.

Do not overprint or reverse out of busy backgrounds.

Do not substitute other fonts.

Do not substitute other fonts.

Only use the approved colors outlined in this document.

Elements that make up the logo should not be rearranged.

KANSAS FONTS FOR PRINT

There are two font families approved for the Kansas state brand: Futura and Times New Roman. Limit use to these two fonts to ensure a consistent and identifiable look. (See exception for electronic communications on page 12.)

Futura is the dominant font for the majority of uses such as ads, collateral, signage, banners, etc. A sampling of the fonts within the Futura family appears here and on the next page.

The non-condensed fonts shown here are the preferred fonts for most applications.

APPLYING THE GRAPHIC STANDARDS

The following pages contain numerous examples of proper application of the graphic standards. By applying all the guidelines presented on the previous pages, and by avoiding unacceptable applications (see page 9), all materials produced for all State Agencies will take on a consistent, professional look.
